

Back to The Farm in the morning

Ken under the stairs in the pantry

Bradley is back with a project he did at Carpentry School

It's a set of stairs for "J.C."

We've pulled the plywood covering the front entrance to build a box so we can finish it

Sunlight streams through the lites

This will be a grand entrance

A closer look (insulated panels)

Pretty narrow set of stairs

Exterior door being painted

Interior of the doors

Oesch Woodworking arrives

Kitchen cabinets have arrived

Transfer to the kitchen

Panel for the kitchen island

Base cabinet

Fridge cabinet with gable end

Through the door

We may have to go through the garage

Cooktop cabinet in the center

Turn it sideways, it's narrower

Just fits

Dave Siebert ponders the install

Island columns – detail -

What's next?

Pieces laid out in the living room

Walnut panels everywhere

**Hardly enough room to walk, but
“J.C.” has her spot out of the way**

**The walnut for these cabinets
came from trees on the property**

Hold it right there!

The island takes shape

Assembly continues

Closeup of the island

Oven goes in this hole

Drawers in the base cabinets have raised panels

End gable for the fridge has it's panel installed

Dave with the base cabinet for the island

Walnut lovers rejoice

**Upper cabinet will hold the
microwave unit**

Brad and Dave install the crown

Now for the center cabinet

Dave made the walnut crown

Major snowstorm overnight

When's the kitchen finished?

Taking “J.C.” out of the way

Ready for countertops

Wine rack at the end of the island

Island cabinets installed

Raised panels and corner posts

How the posts are assembled

Kickboards and heat registers

Finished cabinet under the stairs

The cooktop will sit on this base

Basement stairwell ready for it's handrail
