# Using bits & pieces from the old cabinet

---

# Cabinet's new home

---

# Test fit the original doors

---

# Mixing thinset for the hearth brick

---

# Laying in the brick

---

# Bradley does some finish painting

---

# Finished hearth

---

# Dave paints the exterior of the front entrance

---

# Our workshop in the garage

---

# We can hardly move around

---

# Multiple work stations

---

# Old shelves in new cabinet

---

# Old boards used to deepen it

---

# Old backboards cleaned up for use

---

**Painted side will now be the back**

---

**Backboards are T&G so they must be installed as they were originally**

# Steve strips wood every night

---

# Rescued T&G boards for the lower back portion of the cabinet

---

# Line up the shelves in the original position

---

**Put the backboards on the bottom**

---

**Ready to turn over**

---

# A.K. & Sons #59 cast hinges

---

**2 1/2" stamped on the back**

---

# Ready to face the bottom portion

---

# Making the face from old trim

---

# Set it in place

---

# Test fit in the hole

---

# Original upper doors set in place

---

# A nap after lunch

---

**I'll make the doors from this 1860 panel from a stone house**

---

# Modifying the bits

---

# Dining room & front entrance doors

---

# Front door finish painted

---

**This is what Steve brought me**

---

# New/old lower door fitted

---

# Why it's "Matty"

---

# Working on the security system

---

# Lower doors fitted

---

# Lower doors match doorway panels

---

# Very neat latch

---

# Pin keeps it locked

---

# Wheat pattern on the lampshade

---
