

# Cutout view of mortise & tenon joints on the window panels

---

# The amount of sawdust from ripping the windows panels to fit

---

# Nap on Dave's jacket

---

# Ripped through a buried square nail with the table saw

---

# First coat of finish paint in the Great Room

---

# First coat in the kitchen area

---

# From the Great Room looking towards the front entrance

---

# 1860 flooring to be installed

---

**When our roads are bad, this is a pile of salt being loaded on trucks for delivery around the Province. (Vanastra)**

---

# 1860 window trim in the office

---

# 1860 window trim in Dining Room

---

**I took the architect's drawings and put them in the wall for posterity! We did an awful lot of changes. Ken**

---

# 1860 panel for the top of the opening into the Living Room

---

**1875 trim from the old rear addition  
to be used as casing (maybe)**

---

# Living Room walls are painted

---

# 1860 side panel installed

---

**And then the other side panel – all these were ripped and shortened and altered to fit the opening.**

---

**Then they were primed & painted**

---

**Office window has been primed**

---

# Entrance & office walls painted

---

# Front entrance awaits

---

# Finish painting in the Dining Room

---

# Just the apron board to install

---

# The Great Room has been painted

---

**The 1860 baseboard has to be grooved so the toilet will fit**

---
